

OUR MISSION

The surgery center is committed to providing safe, compassionate, patient-focused care and honoring each person's spiritual need with the goal of improving their quality of life.

OUR VISION

Functional Neurosurgical Ambulatory Surgery Center will be the pre-eminent provider of a culture of safety in which patient-focused care and staff engagement are accomplished through professional and transparent accountability.

CORE VALUES

Integrity: honesty, directness and respect for commitments made.

Stewardship: respectful is of all natural, human and financial resources.

Spirituality: acknowledgment of its central role in facilitating mental, physical and emotional health.

Imagination: creativity and innovation in all we do.

Respect: respect for all persons and our Christian identity, heritage and missions of our sponsoring organizations.

Excellence: striving to exceed the clinical quality, customer service and cost performance expectations of our customers.

Compassion: sensitivity and responsiveness to persons in need.
